

REQUEST FOR PROPOSAL (RFP)

Smart Parking System Implementation

PROJECT INFORMATION

Project Code: SPS-2025-001

Issuing Authority: Riyadh Municipality - Digital Infrastructure Department

RFP Issue Date: January 15, 2025

Proposal Submission Deadline: February 28, 2025

Project Start Date: April 1, 2025

PROJECT OVERVIEW

The Riyadh Municipality seeks qualified vendors to design, develop, and implement a comprehensive Smart Parking Management System for the downtown commercial district. This system will optimize parking utilization, reduce traffic congestion, and improve the overall parking experience for citizens and visitors.

SCOPE OF WORK

The selected vendor must deliver the following components:

1. IoT Infrastructure

- Install 200 smart parking sensors across designated parking spots
- Implement wireless communication network for real-time data transmission
- Provide gateway devices and network infrastructure

2. Mobile Application Development

- Native iOS and Android applications
- Real-time parking spot availability
- Navigation and reservation features
- Integrated payment processing
- Arabic and English language support

3. Web Administration Dashboard

- Real-time parking monitoring and analytics
- User management and reporting tools
- Revenue tracking and financial reporting
- System configuration and maintenance tools

4. Payment Integration

- Multiple payment methods (credit cards, digital wallets, cash)
- Integration with existing municipal payment systems
- Automated billing and receipt generation

5. API Development

- RESTful API for real-time parking data
- Third-party integration capabilities
- Data export and reporting functions

6. Analytics and Reporting

- Usage pattern analysis and insights
- Revenue optimization recommendations
- Performance monitoring dashboards
- Monthly and annual reporting capabilities

7. Implementation Services

- System testing and quality assurance
- Staff training and knowledge transfer
- Documentation and user manuals
- Go-live support and deployment

PROJECT TIMELINE

Maximum Project Duration: 120 days (4 months) from contract signing

Key Milestones:

- Week 4: Infrastructure installation complete
- Week 8: Software development and testing complete
- Week 12: System integration and user acceptance testing
- Week 16: Full deployment and go-live

BUDGET CONSTRAINTS

Maximum Budget: 450,000 SAR (inclusive of all taxes and fees)

Payment Terms: 30% upon contract signing, 40% upon system testing completion, 30% upon final delivery and acceptance

EVALUATION CRITERIA

Proposals will be evaluated based on the following weighted criteria:

- **Technical Capability (35%):** Solution architecture, technology stack, scalability
- **Cost Effectiveness (25%):** Total cost, value for money, ongoing operational costs
- **Timeline Feasibility (20%):** Realistic project schedule, milestone planning
- **Company Experience (15%):** Relevant project experience, team qualifications, references
- **Post-Deployment Support (5%):** Maintenance plans, support availability, warranty terms

Total Weight: 100%

MANDATORY COMPLIANCE REQUIREMENTS

All proposals must demonstrate compliance with:

1. **ISO 27001 Security Certification** - Required for data handling and system security
2. **GDPR Compliance** - All data processing must meet European privacy standards
3. **Saudi Data Residency** - All citizen data must be stored within Saudi Arabia
4. **Arabic Language Support** - Mobile applications must fully support Arabic interface
5. **99.5% Uptime SLA** - System availability commitment required
6. **24/7 Technical Support** - Mandatory support coverage for first 12 months

Non-compliance with any mandatory requirement will result in proposal disqualification.

PENALTY STRUCTURE

The following penalties will apply for contract violations:

- **Late Delivery:** 2% of total contract value per week of delay
- **Scope Deficiency:** 10% penalty for each missing deliverable
- **SLA Breach:** 1,000 SAR per day below 99.5% uptime requirement

- ****Maximum Total Penalty:**** 25% of total contract value

SUBMISSION REQUIREMENTS

Technical Proposal Must Include:

- Detailed system architecture and design
- Implementation methodology and project plan
- Team composition and qualifications
- Technology stack and infrastructure requirements
- Testing and quality assurance approach

Financial Proposal Must Include:

- Detailed cost breakdown by component
- Payment schedule aligned with milestones
- Ongoing operational and maintenance costs
- Any additional fees or charges

Company Qualifications Must Include:

- Minimum 3 years experience in smart city solutions
- At least 2 completed parking management projects
- ISO certifications and relevant compliance documentation
- Client references and case studies

PROPOSAL SUBMISSION

Deadline: February 28, 2025, 3:00 PM Arabia Standard Time

Submission Method: Electronic submission via municipal procurement portal

Contact Person: Ahmad Al-Rashid, Senior Procurement Officer

Email: a.alrashid@riyadh.gov.sa

Phone: +966-11-XXX-XXXX

TERMS AND CONDITIONS

- Proposals must remain valid for 90 days from submission deadline
- Municipality reserves the right to reject any or all proposals

- Selected vendor must provide performance bond equal to 10% of contract value
- All intellectual property developed will be owned by Riyadh Municipality
- Contract will be governed by Saudi Arabian law
